SUMMARY

Webflow Developer with over 7 years of specialized experience building high-performance, scalable websites and digital interfaces. Background in front-end development, design, and UI/UX prior to focusing exclusively on Webflow. Strong emphasis on clean architecture, maintainable systems, and performance-driven implementation. Highly confident with custom code, including JavaScript and advanced GSAP-based interactions. Experienced in translating complex design concepts into polished, production-ready experiences. Comfortable collaborating across design, product, and development workflows.

SKILLS

Proficient: Webflow Development, Component & Layout Systems, Responsive Design, Webflow CMS, HTML, CSS, JavaScript, GSAP (ScrollTrigger, timelines, micro-interactions), Interaction Development, Performance-Oriented Builds, Cross-Browser Debugging, Client-First / Structured Class Systems

Intermediate: Advanced JavaScript Patterns, Animation Architecture, Accessibility Best Practices, SEO Fundamentals, API Integrations, Custom Logic & Behaviors, Web Performance Optimization, Wized, Xano, Figma Handoff & Design Translation

Beginner: React / React Native, TypeScript, Backend Concepts, Node-Based Workflows, Automated Testing

PROFESSIONAL EXPERIENCE

Senior Webflow Developer

BX Studio, New York, US – Remote

05/2025 to Present

Core Responsibilities:

- Lead Webflow development for modern, high-fidelity marketing and product websites, ensuring scalability and maintainability.
- Build advanced interactions and motion systems using JavaScript and GSAP to enhance user experience and visual feedback.
- Develop structured component systems and reusable layouts aligned with performance and responsive best practices.
- Collaborate with designers and stakeholders to translate complex UI/UX requirements into polished Webflow implementations.

Key Technologies and Tools: Webflow, JavaScript, GSAP, HTML, CSS, Responsive Design, Interaction Development, Performance Optimization

Webflow Developer

Finsweet – Remote

12/2023 to 06/2025

Core Responsibilities:

- Delivered custom Webflow builds and interface implementations across multiple client projects, ensuring scalability, responsiveness, and visual precision.

- Worked closely with structured class methodologies and scalable CMS architectures for dynamic content.
- Extended Webflow capabilities using JavaScript for custom behaviors and UI logic.
- Implemented responsive layouts and interaction patterns with strong attention to visual precision.

Key Technologies and Tools: Webflow, JavaScript, GSAP, Figma, HTML, CSS, CMS Structures, Client-First Methodology

Senior UX/UI Designer

Promob Software Solutions – Caxias do Sul, BR – Remote

07/2022 to 12/2023

Core Responsibilities:

- Designed user interfaces and product experiences with a strong focus on usability, clarity, and visual hierarchy.
- Created wireframes, high-fidelity layouts, and interaction concepts for digital products and features.
- Collaborated with product and development teams to ensure accurate design translation and consistency.
- Maintained design system consistency and reusable UI patterns across projects.

Key Technologies and Tools: Figma, UI Design, UX Design, Design Systems, Prototyping, Interaction Design

UX/UI Designer

Theòs Sistemas Eclesiais – Maringá, BR

03/2020 to 07/2022

Core Responsibilities:

- Designed and refined interfaces for web-based systems with emphasis on usability and workflow efficiency.
- Developed layouts, components, and interaction patterns aligned with user needs.
- Partnered with developers to ensure accurate UI implementation and visual consistency.
- Iterated on designs based on feedback, testing, and evolving product requirements.

Key Technologies and Tools: Figma, UI Design, UX Design, Prototyping, Interface Design

PROFESSIONAL DEVELOPMENT

Self-Directed Education in Web Development, UI/UX, and Webflow

Focused on practical, project-based learning through online courses, technical documentation, and hands-on implementation.

Key areas of study include:

- Webflow Development & CMS Architecture
- Front-End Fundamentals (HTML, CSS, JavaScript)
- Advanced Interaction & Animation (GSAP)
- UI/UX Design & Interface Systems
- Performance & Responsive Design Principles
